Setting Name: Do Not Show Itemisation

This setting removes the call / event itemisation table and the [extension level billing](#) itemisation table from the invoice. This itemisation grid is used for telephony services.

NB. This is a global setting, if the Invoice Itemisation setting is set to 'Off' in Account > Detail Tab for an individual account this will also turn off the Itemisation for a particular Account.

Invoice Itemisation setting is normally 'On' (System Default)
