

Add Bolt-on Add-on Subscription

[Go to full article](#)

Overview

This call creates a new bolt-on add-on subscription.

Create a Bolt-on Add-On Subscription

To create a new bolt-on add-on subscription:

1. Create a addBoltOnAddOnSubscription request
2. Specify the login token that was returned in the authentication step.
3. Specify the existing service bolt-on subscription id, against which, the add-on subscription needs to be created
4. Specify the bolt-on add-on plan id which needs to be subscribed against the existing service bolt-on subscription

Business Rules

- The bolt-on subscription must exist.
- The bolt-on subscription id must belong to a service subscription that is owned by the caller account.
- Bolt-on add-on plan id must exist in the database.
- Bolt-on add-on plan id must be flagged as saleable via the API.
- Bolt-on add-on plan id must be owned by the parent of the caller account.
- If the bolt-on add-on plan does not allow concurrent *preactive* subscriptions, there must be no preactive add-on subscription against the bolt-on.
