      <ns1:Status>true</ns1:Status>
    </ns1:vocusNBNPostSQSetupResponse>
  </SOAP-ENV:Body>
</SOAP-ENV:Envelope>
```

Field Descriptions

All field names are case sensitive. Check enumerated values in the descriptions to confirm capitalisation and spacing. See [field types](#) for additional information..

Name	Description	Required?	Field Type	Character limit	Values
AccountPresaleSQID	Account Presale Sq ID retrieved using API Call Perform Vocus NBN SQ	Yes	Int		658559
CentralSplitter	This field determines whether a central splitter will be required for the service.	No	Boolean		'Y' or 'N'

Error Handling

Error Message	Description
---------------	-------------

Account Presale SQ ID does not pertain to Vocus NBN service type	
Central Splitter can only be specified for FTTB/N technology	The original SQ indicated that the Location did not support either the FTTN or FTTB technology types. Central Splitters can only be used with these technology types.
Central Splitter cannot be set before setting NBN Ordering Option. Please use the 'SetNBNOorderingOption' API call	
Central Splitter cannot be ordered because Voice Continuation was not selected via ordering option 'newWithExisting'	Check the ordering option you made with API call Set NBN Ordering Option
