

Process Pre-Billing On Preactive Service Subscription

[Go to full article](#)

Overview

This call is used to immediately trigger pre-billing process against a preactive service subscription and take access fees.

WSDL

<https://api.emersion.com.au/Services.wsdl>

Operation name

ProcessPreBillingOnPreactiveServiceSubscription

Business Rules

- Service subscription must be preactive
- Service subscription must be owned by caller account
- Service subscription must be at the bottom tier (i.e. at the end user account level)
- Pre-billing should not have been already processed against the service
- Service type, of the service, must support Preactive Billing
